PARCO
VILLA
TRECCI
MONTEPULCIANO

" when we are born we see beauty, when we became older , we are able to stare at the beauty that sur rounds us, allowing us to acquire the serenity that men needs to have."

Cinzia Sorlini

PARCO VILLA TRECCI

MONTEPULCIANO

Parco Villa Trecci is a dream that came true. On the border between the sunrise of the Valdichiana Valley and the sunset of the Orcia Valley, in an enchanted paradise of the region, the ideal garden comes to life; the excellent mediterranean garden, full of colours and perfumes of our Park it is the perfect place to reconnect one's self with inner peace.

The Park of Villa Trecci offers to you a wide choices of experiences, all aimed at finding one's wellbeing and the pleasures of life.

Located in the south-east part of Tuscany, during the centuries the town of Montepulciano has always had a relevant role, starting from the name, a deformation of the Etruscan word Purth, which means Commander. The first documents date back to the Longobard period between the years 713 and 715, when there are the first references to the Mons Politianus. In the year 1390, a peace sanctioned with Florence led to a period of political stability, and many cultural and artistic works. The architectural embellishments were a political message of great importance, and the facades of historical buildings, such as the Palazzo Avignonesi and Palazzo San Donato that we can see today, were constructed during this period. Even the literature, like all other expressions of art, had a golden age during these years. An important person was Bartolomeo Aragazzi, a man of Letters and secretary to Pope Martin V. The agriculture was advantaged in this period of prosperity, with the reclamation of the Val di Chiana, started by the Medici Family in the 16th century, and finished between the 18th and the 19th centuries under Leopold from the Habsburg Lorraine Family. The building of the Canale Maestro promoted the economic growth of the countryside and consequently all the surrounding villages. The *Vino Nobile di Montepulciano* DOCG, can make claim to being the most ancient wine of all, as stated in the first documents, which dated back to the year 789. The village is carved out of tufa rock that reveal ancient cellars, confirming an indisputable link between this wine, the town and the land where it was created.

Montepulciano the land of magic

The logo of our company comes from a special union between artistic inspiration and the outstanding power of women

Alfredo De Santis

played an important role in the Italian design world, during the second half of the 20th century. He really loved the Orcia Valley and he was a great friend of Adelmo Barlesi and Cinzia Sorlini, and for whom he created our Logo, which represents the special strength of this woman, a female figure who runs the house, nature, and the world.

Adelmo who comes from Rome, is a designer and a landscape architect, and **Cinzia** who is from Brescia graduated in History of Art, are the owners of Parco Villa Trecci. A dream, and a project in constant development, a wonderful place where they have involved all their **passions for Art, Nature and the Aesthetic**, to share with everyone who appreciates beauty, culture, colours and aromas of a place where you may be embraced, with elegance and comfort.

In the background, the first drawings of the Garden's project, made by the designer Adelmo Barlesi

The Park

The park is three hectares, extending across different landscapes, the garden of silver plants, the small wood, the rose garden, the big flowerbed of grass plants, the lake with water plants and the swamp, the lemon house, and the wide green spaces interrupted by secular olive trees and scented blooms.

In the garden we have collected around 400 different species of plants, which do not need watering in the summer.

As well, we have taken particular attention and care to the sounds, colours and aromas of the plants especially the silver plants, which are deeply connected to our emotions

and remind us of places, linked to our mediterranean world.

luglio 2014 montepulciano

The garden has a rich programm during the seasons, cultural events, art exhibition and concerts. You may visit the garden, for a relaxing walk and tasting the products of our Bio Farm.

A walk through the Park will be relaxing and pleasant, and here you will find some plants that you already know, living in a natural cohabitation with others,

this will be a peaceful experience of discovery,

which you can take home with you.

During the season we hold some art events such as exhibitions and concerts and the park is open to the public several days of the week.

Associazione
Parchi e Giardini d'Italia

Mediterranean
Garden Society

The Garden is associated to the APGI and MSG, and the MIBAC recognized us as one of the most beautiful garden of Italy.

On the left: a work of art of Emanuele Caporrella of the art exhibition "The Works of an Art Foundry" hosted in the Garden.

The organic farm

The Farm has been created from a love of nature and the desire to experiment with agriculture which is both organic and ecosustainable at the same time. A cultivation that takes care of the biodiversity, quite distant from the traditional way of cultivation, with its long extensions in monoculture land. Simply by taking a step back in time, because we are convinced, with pride, that each one of us needs to do this, for

the love of Mother Earth

and our children.

We have cultivated around 30 hectares where lucerne and other legumes are grown, with meadows of flowers for the bees, olive trees, vineyards, and a big garden where we produce seasonal fresh vegetables for our restaurants, an orchard with fruit trees which were carefully chosen at the time of planting, it is a land with ancient varieties which must be preserved from extinction and not suitable for extensive cultivation, in the center of the farm is our Park of Villa Trecci with 3 hectares of biodiversity, with mediterranean arid plants.

San Bartolomeo di Caselle

location
the infinite
views*

The little Church of San Bartolomeo was founded in the year 1236 on old preexisting foundations whose date has been confirmed with an official document, dated 22nd January 2014 from the Ministry of Cultural Heritage, Activities and Tourism. Even though it is small in appearance and dimensions, our church is a noble historical monument.

The church was in a bad state of preservation, and the restoration work was started in May 2016 and reopened for services exactly one year later.

The architectural restoration gave us a real insight into the various transformation that the building, underwent during the centuries.

San Bartolomeo di Caselle

San
Bartolomeo
di Caselle
two exclusive
apartments
within
a unique
location

Nearby to the ancient little church is the San Bartolomeo di Caselle from the 14th century, with two apartments, at the rear of the building, a pleasant place for people who desire to restore

themselves from the daily routine, by relaxing and taking excursions in the neighbouring areas.

The apartments have been restored, paying the greatest attention to detail, and with a careful respect for the original architecture of the building that makes San Bartolomeo a unique place.

San Bartolomeo with its two apartments is completely surrounded by a magnificent panorama, set on a small promontory that isolates it from the surroundings while at the

same time the elevation gives an expansive view of the horizon.

The two apartments are equipped and furnished with pieces created by a famous international designer and with antique pieces that comes directly from the owner's private collection.

There is no swimming pool, a choice of respect for the quiet of the place, a garden surrounds the building, so as one can enjoy the view of the hills and the amazing sunset over the Orcia valley.

In one apartment we have two double bedrooms, and in the other one there is one double bedroom and a bedroom with twin beds, there are two bathrooms in each apartment with hydromassage, showers with chromotherapy and a turkish bath.

Sat tv and wi fi.

San Bartolomeo di Caselle is an unforgettable experience.
